PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology graduate with hands-on project experience, strong problem-solving skills, and practical training in software development. Quick learner with a solid foundation in building real-world applications, adapting to new technologies, and working in team-driven environments. Passionate about creating impactful solutions, continuously improving technical abilities, and contributing effectively as a Software Developer in growth-focused IT organizations.

TECHNICAL SKILLS

Languages	Python, SQL, JavaScript, HTML, CSS, C++
Frameworks	Django, FastAPI, REST APIs
Databases	MySQL, SQLite
Tools	Git, GitHub, Postman, Jupyter Notebook, VS Code
Concepts	OOP, DSA, DBMS, OS, CN, MVC, CRUD, Authentication

EXPERIENCE

Python Full Stack Development Trainee

QSpiders / PySpiders • Kolkata, India

- Developed backend applications using Python, Django, and FastAPI; practised REST API design, CRUD operations, and exception handling across multiple real-world training modules.
- Executed SQL queries and database operations in MySQL; improved debugging and problem-solving skills through intensive project-based training in full-stack development.

PROJECTS

E-Commerce Sentiment Analysis

Python • NLP • TF-IDF • Scikit-learn • SQL • Pandas

- Built an NLP pipeline to classify customer sentiment across 23,000+ product reviews using TF-IDF vectorization and Logistic Regression, automating recommendation prediction.
- Performed SQL-based data extraction and Pandas EDA to uncover actionable insights on customer satisfaction and product performance.

FastAPI REST Backend

Python • FastAPI • REST API • JSON • Postman • SQLite

- Developed high-performance RESTful APIs with full CRUD operations using FastAPI; tested and validated all endpoints via Postman ensuring reliable, maintainable backend architecture.
- Implemented async request handling and Pydantic-based data validation, achieving fast response times and clean, scalable API design.

Django Weather App

Python • Django • OpenWeatherMap API • HTML • CSS

- Built a full-stack weather application integrating the OpenWeatherMap REST API to fetch and display real-time weather data (temperature, humidity, conditions) for any searched city.
- Designed a responsive, cross-device-compatible UI with robust error handling for invalid inputs and API failures.

TO-DO Task Manager — Django

Python • Django • MySQL • HTML • CSS • Django Auth

- Developed a full-stack task management app with end-to-end user authentication (register, login, logout) using Django's built-in auth framework.
- Implemented complete CRUD functionality with form validation and real-time UI updates, demonstrating core web development and database integration skills.

EDUCATION

B.Tech — Information Technology

MCKV Institute of Engineering, West Bengal | CGPA: 7.81 / 10

Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks, Web Technologies

CERTIFICATIONS

- Python Programming Workshop — IIT Kharagpur
- AI & Machine Learning Workshop — IIT Bhubaneswar
- SQL Intermediate & Python Basics — HackerRank Certified
- DSA & Placement Preparation with C++ — Apna College

ACHIEVEMENTS

- GitHub Pull Shark & Quickdraw — earned for active pull request collaboration and rapid issue response on GitHub.
- HackerRank SQL Intermediate + Python Basics — verified problem-solving and query skills.
